Convert this blog post into a YouTube script, LinkedIn post, X (Twitter) thread, Instagram caption, Facebook post, and email newsletter while maintaining a consistent message.

Get Better Results with ChatGPT

The C.L.E.A.R. Prompt Framework

C – Context

Explain the background or situation so ChatGPT understands your request.

L – Length

Specify how long the response should be (e.g., 100 words, 5 bullet points).

E – Example

Provide an example of the style or format you want.

A – Audience

Mention who the content is for (beginners, professionals, students, etc.).

R – Result

Mention who the content is for (beginners, professionals, students, etc.).

✓ Best Practices

- ✓ Be specific about your request.
- ✓ Give enough context.
- ✓ Define the target audience.
- ✓ Specify the desired tone.
- ✓ Mention the output format.
- ✓ Refine your prompt if needed.

✗ Common Mistakes

- ✗ Being too vague.
- ✗ Asking multiple unrelated questions.
- ✗ Providing little or no context.
- ✗ Forgetting to specify the output.
- ✗ Expecting perfect results on the first try.
- ✗ Ignoring follow-up refinements.

Bonus Prompts & Pro Tips

Video Hook

Write 10 attention-grabbing hooks for a YouTube video about [TOPIC].

Content Calendar

Create a 30-day content calendar for [NICHE] with blog, YouTube, and social media ideas.

Keyword Clustering

Group these keywords into SEO-friendly topic clusters: [KEYWORDS].

Content Repurposing

Turn this blog post into a LinkedIn post, Instagram caption, X thread, and email newsletter.

Call-to-Action

Write 10 persuasive CTAs for [PRODUCT / SERVICE] using a friendly and confident tone.

Audience Persona

Create a detailed audience persona for [BUSINESS / NICHE], including goals, pain points, and content preferences.

Pro Tip

- Give ChatGPT enough context before asking a question.
- Ask for the output in a specific format (table, list, bullets, etc.).
- Refine your prompt instead of starting over.
- Save your best prompts for future use.
- Experiment with different tones and styles.
